### PROFILE

I am currently a 4th-year student at FEU Institute of Technology pursuing a bachelor's degree in Information Technology with a specialization in Web and Mobile Applications. With my passion for technology, I am eager to learn and contribute my knowledge and skills in troubleshooting, computer networking, and front-end development. With the experiences that I have at hand, I am committed to enhancing my skills and acquiring new knowledge to expand my expertise which will help me improve and grow as an individual in the Information Technology field and further contribute effectively to the attainment of the company's goals.
